Language: English Brand New Book ***** Print on Demand *****.Excerpt from Manual of the Flora of Jackson County: Missouri Situated as it is, where the floras of several different regions blend, Jackson County, Missouri, is of especial interest to the botanist. Fortunately its flora has been studied as thoroughly probably as that of any other western area of similar size. The results of these investigations have appeared from time to time in several local floras. The first of these was entitled Flora of Jackson County, and was published in 1882 by Mr. B. F. Bush. In 1885 Mr. Bush and Rev. Cameron Mann published a supplement to this flora, and in 1888 Mr. Bush published a second supplement. The species and varieties enumerated in these three lists are numbered consecutively and aggregate 1,004. In 1899 I published a Spring Flora of Kansas City and Vicinity, which contained a key to the plants blooming before the first of June. This work also added a few species to those already enumerated in the previous works. In addition, a series of very instructive and ably written papers by the Rev....
