## MOLECULAR MARKERS IN ACUTE MYELOID LEUKEMIA (AML)

Condition: New. Publisher/Verlag: AV Akademikerverlag | Significance of Molecular Markers for Patients in the Intermediate Risk Group | Acute myeloid leukemia is a malignant disease of the hematopetic system. It often leads to a massive proliferation of precursors of myelopoiesis in the bone marrow and blood. Based on the morphology of the immature blood cells and their differentiation AMLs are stratificated into eight sub-goups using the French-American-British classification (FAB). Despite classification, generating a prognosis for the patient is often difficult,...
