Reviews

It is one of my personal favorite books. It is one of the most incredible ebooks I have ever read. You will not feel monotony at any moment of your own time (that's what catalogues are for relating to if you ask me).

This novelette reveals the first days of martial law before it became known as the Flip. Live through the lives of the people that were a part of life shattering changes and learn how difficult life can become when the laws of morality and ethics find no place in the human condition. Stephen Gill was an Army National Guardsman when the Flip went down, His trials mirrored the lives of every patriot that lived under the yoke of unconstitutional fiat. His presence was sought after when Tori made it to Gorham, but his story was never told, nor the reason for his absence. Until now.
