American Psychiatric Association Publishing, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book. Both academically rigorous and clinically practical, Trauma- and Stressor-Related Disorders is fully informed by the new DSM-5 category that includes adjustment disorders, acute stress disorder, and posttraumatic stress disorder. Stress and trauma have long been recognized as playing a role in the etiology of certain psychiatric disorders, and this book delineates normal and pathological responses to stress, providing a conceptual framework for understanding trauma- and stressor-related disorders. An individual s response to stress depends on numerous genetic, developmental, cognitive, psychological, and neurobiological risk and protective factors, and these are examined from both a scientific and clinical perspective. Central to the book s utility is its presentation of clinical vignettes that help the reader to contextualize the information presented and model effective clinical skills.Among the volume s critically important topics and features are Â A robust section on assessing the psychosocial factors associated with resilience (e.g., optimism, cognitive flexibility, a social support network), encouraging and enhancing these factors, and implementing psychosocial interventions to aid patients who have experienced trauma to promote resilience by targeting these factors.Â A comprehensive chapter on the medical-legal aspects of trauma- and stressor-related disorders because clinicians working with these patients frequently encounter situations that have legal implications (e.g., capacity evaluations, informed consent, confidentiality, serving as a witness in court proceedings).Â Full coverage of controversies unique to this group of disorders. For example, because no other set of DSM-5 diagnoses require a stressor as an etiological agent, this dimension can add considerable controversy to these diagnoses. Â Comprehensive overview of the development of the stress and trauma disorders chapter of the upcoming revision of the International Classification of Diseases (ICD-11, expected for 2017), including crosswalk tables to compare ICD-10, DSM-5, and the...
